Disclosure Report

Date Submitted: September 2nd, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement	
Topic	Clients in Controversial and Ineligible Industries
Summary of Issue	<p>LIQID Investments GmbH invests on behalf of its clients in the public and private global capital markets. Controversial industries are actively excluded from the private market strategies as well as from the public market strategy “Global Future”. The remaining two public market strategies, “Global” and “Select” adopt a global investment approach, investing in several thousand stocks and bonds from around the world. While it is not possible to access exact company sector allocations for these strategies, they may include minor investments in the following controversial industries:</p> <p>Charity Lotteries, Mining, Nuclear Power, Pharmaceuticals, Fossil Fuels Production, Gambling, Offensive Firearms/Weapons/Defense, and Tobacco/Nicotine/Vapes.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>In the last fiscal year, the company's estimated share of assets under management (AuM) with exposure to these controversial industries was as follows: less than 0.01% in Charity Lotteries, less than 0.03% in Mining, less than 0.07% in Nuclear Power, less than 1.60% in Pharmaceuticals, less than 1.40% in Fossil Fuels Production, less than 0.05% in Gambling, less than 0.40% in Offensive Firearms/Weapons/Defense, and less than 0.30% in Tobacco/Nicotine/Vapes.</p>
Impact on Stakeholders	<p>Companies that work with investments in controversial industries can directly or indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>Companies offering certain types of services and products to controversial industries are required to have at a minimum a grievance/complaints mechanism and a whistleblower protection policy.</p>
Implemented Management Practices	<p>B Lab has been able to verify that the company has the necessary mechanisms in place to manage the risks related to</p>

	<p>their business relationships with clients in controversial and ineligible industries, in line with B Lab's requirements (see link below). This includes:</p> <ul style="list-style-type: none">• A mechanism for internal and external stakeholders to raise grievances;• A policy that is shared with individuals who raise a grievance, containing information related to the grounds for accepting a grievance and how their grievance will be dealt with, as well as related timelines.• A Whistleblower Policy that establishes the company's commitment to protecting whistleblower identity as well as the processes and controls in place to protect stakeholders who raise grievances from any form of retaliation.
