

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must be transparent about the disclosure issues identified on the company's public B Impact Report.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

Disclosure Questionnaire category: Energy and Emissions Intensive industry

Updated as of: 07/27/2023

LUP is involved in the production/sale of products or is part of an industry that can potentially be classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to their involvement in the sensitive industry, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Certificación B Corp - Documentación del cuestionario de divulgación

Categoría del Cuestionario de Divulgación: Industria intensiva en energía y emisiones

Actualizado a: 07/27/2023

LUP está involucrado en la producción/venta de productos, o es parte de una industria que potencialmente puede clasificarse como intensiva en energía y emisiones, lo que significa que es más probable que tengan impactos significativos en el medio ambiente en función de sus emisiones de carbono asociadas con sus operaciones y su contribución al cambio climático. Las empresas B certificadas deben hacer transparente su participación en tales actividades o industrias

Cualquier parte que tenga conocimiento de prácticas específicas de la empresa que hayan tenido un impacto negativo relacionado con su participación en la industria sensible, y que puedan constituir una violación de los estándares de B Corp, puede comunicarse con nosotros a través de nuestro [procedimiento de quejas públicas](#).

B Corp Certification - Disclosure Questionnaire Documentation

Disclosure Questionnaire category: Water Intensive industry

Updated as of: 07/27/2023

LUP is involved in the production/sale of products, or is part of an industry that can potentially be classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Certificación B Corp - Documentación del cuestionario de divulgación

Categoría del Cuestionario de Divulgación: Industria de Uso Intensivo de Agua

Actualizado a: 07/27/2023

LUP está involucrado en la producción/venta de productos, o es parte de una industria que potencialmente puede clasificarse como intensiva en agua, lo que significa que es más probable que tengan impactos significativos en el medio ambiente, como estrés hídrico o agotamiento de las fuentes de agua locales. si el uso del agua no se gestiona adecuadamente. Las empresas B certificadas deben hacer transparente su participación en tales actividades o industrias.

Cualquier parte que tenga conocimiento de prácticas específicas de la empresa que hayan tenido un impacto negativo relacionado con su participación en estas u otras industrias controvertidas, y que puedan constituir una violación de los estándares de B Corp, puede comunicarse con nosotros a través de nuestro [procedimiento de quejas públicas](#).
