The Tropical Mountains Coffee Farm in Peru

WELCOME TO TROPICAL MOUNTAINS

Tropical Mountains began in 2012 as a small farm a 12-hour drive away from Lima, Peru. Gisella Iriarte and Thomas Schwegler, from Peru and Switzerland respectively, dreamed of organic and specialty coffee – traceable from the bean in the tropical highlands to the fragrant cup at home. In the meantime, gourmet coffees from all over the world have been added to our range. And as Tropical Mountains evolves, we rely on our roots: organic farming, direct and fair trade and sustainable packaging. We are a member of the World Fair Trade Organization (WFTO), support local schools and fund charitable projects.

Respect makes better-tasting coffee. Respect for our employees, for the coffee plant and for nature as a whole. That's why we also offset all CO₂ emissions from all our coffee products along the value chain. Our family grows – but our values remain.

Gisella Iriarte &
Thomas Schwegler

RESPECT MAKES BETTER-TASTING COFFEE

Our Sustainability Pledge

Premium Quality

QUALITY CONSCIOUS:

The Specialty Coffee Association (SCA) honors particularly high-quality coffee. All of our varieties convince with over 80 out of 100 possible points.

Sustainable & Organic

SUSTAINABLE AND ORGANIC:

All of our coffees come from organic farming. We also support local schools and we are a member of the World Fair Trade Organization (WFTO).

Coffee Family

COLLECTIVE:

This coffee comes from our farm or the organic and fairtrade certified partners of Tropical Mountains. Our family is growing steadily - our values remain.

FREE OF ALUMINIUM:

We want to go an environmentally friendly way. That is why our coffee bags are free from aluminum. The coffee pods and capsules are compostable.

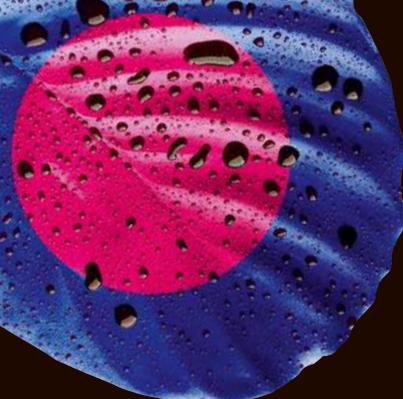

Aluminium-Free

Climate Neutral

CLIMATE NEUTRAL:

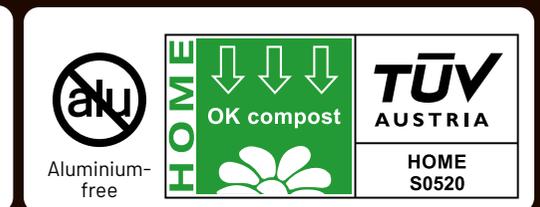

We are a «Climate Partner» and offset our greenhouse gas emissions. Tropical Mountains supports climate protection projects in Peru, Colombia and Nicaragua.

Certifications referred to our pods:

Certifications referred to our capsules:

GOURMET TASTE COFFEE

Everything we do is sustainable and organic.

The beans are carefully selected and slowly roasted to bring out the best flavour, which ensures a more balanced, healthier cup of coffee.

ZERO WASTE PACKAGING

Pods packaging made of FSC-certified and recyclable paper.

E.S.E. pods for all 44 mm single portions lever machines – 100% aluminium-free and compostable.

Nespresso® compatible coffee capsules – fully garden compostable and 100% aluminium-free.

Capsule bin made of bamboo and cassava – also fully garden compostable or reusable.

Refill bags with up to 250 capsules, especially suitable for seminar and meeting rooms, office, restaurant, break corner and kitchen. They are also made from pure natural materials.

A TRULY SUSTAINABLE COFFEE SOLUTION FOR OFFICE, RESTAURANT, BREAK CORNER & KITCHEN

Tropical Mountains purchases raw coffee directly from the producers without middlemen and supports sustainable and social projects at origin (e.g. building of a pre-school and tablets for students during the COVID crisis)

COFFEE CAPSULES

The world's first climate neutral and OK-Compost Home certified coffee capsules for the Nespresso® household system and perfectly suitable for hotel rooms.

- Nespresso compatible
- fully garden compostable
- 100 % organic & fair trade
- varieties: **Ristretto, Espresso, Lungo, Decaffeinato**
- available as: 21 pcs bin, 100 pcs & 250 pcs refill bag

COFFEE PODS

Garden compostable E.S.E pads for all 44 mm single portions lever machines. E.S.E. pods are suitable not only for private households but also for office environment or the catering industry.

- fully garden compostable
- 100 % organic & fair trade
- varieties: **Espresso & Lungo**
- available as: single portion and 40 pcs bag

GROUND COFFEE & BEANS

We also provide a wide range of fair trade and organic certified ground coffee and beans.

- 100% Arabica or Arabica-Robusta-Blends
- 100 % organic & fair trade
- roast color: **light, medium or dark roast**
- available as: 250 g, 500 g and 1000 g packs

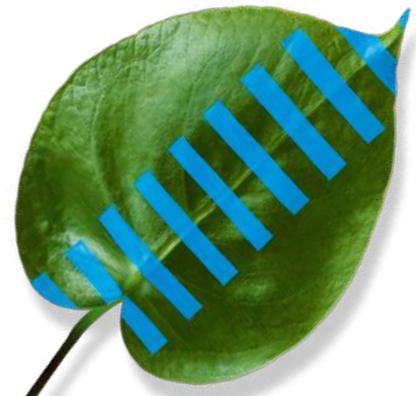

THERE IS NO PLANET B

The world has a serious garbage problem – there is plastic and aluminum everywhere. Modern coffee consumption sadly contributes to that.

We are addressing this issue with plastic- and aluminium-free coffee that is organically grown and 100% climate-neutral.

**JOIN US TO MAKE A DIFFERENCE –
FOR THIS AND FUTURE GENERATIONS
TO COME.**

TROPICAL MOUNTAINS COFFEE

Tropical Mountains is the perfect partner for a more sustainable coffee consumption in the world.

Tropical Mountains Coffee is an award-winning and leading brand in sustainable coffee production and innovation.
