

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Joelson LLP UPDATED AS OF: 02/23/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Clients in controversial industries
TOPIC	Clients in the betting and gaming industry
SUMMARY OF ISSUE	Joelson LLP is a UK-based law firm that has a specialized practice for the betting and gaming industry. The company offers advice on the full range of regulatory, corporate and commercial issues that affect the gambling sector specifically in the UK gambling market, which is amongst the most strongly regulated in the world. Much of the company's work involves corporate transactions (i.e. buying or selling companies or divisions), commercial contracts (e.g. privacy notices, terms and conditions) or advice on compliance with regulatory requirements.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Services related to the betting and gaming industry represent approximately 2% of the company's revenue.
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.
	B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
IMPLEMENTED MGT PRACTICES	Joelson undertakes thorough due diligence when on boarding new clients as part of its regulatory obligations, including compliance checking on identities of clients (both individuals and corporates), and full anti-money laundering due diligence. Joelson does not have any specific due diligence mechanisms relating to the social and environmental impact of its clients in specifically controversial industries. Much of the advice provided to clients in this sector relates to the compliance with the legislation in the UK and in particular the codes of conduct which have been implemented by the Gambling Commission (the UK Regulator). This includes advice relating to the promotion of responsible gambling and the adoption by client of specific codes of conduct to protect against problem gambling. In addition Joelson has been involved in providing advice and support to the UK leading charity providing support to problem gamblers (GamCare).
	The company claims that they have not acted for clients in controversial industries in respect of regulatory breaches relating to social and environmental issues.
REPORT	Gambling Commission GamCare website
MANAGEMENT COMMENTS	As a law firm with a specialism in this sector we take our responsibilities very seriously in order to ensure that our clients act responsibly and fully comply with legislation in the UK, the codes of conduct established by the Gambling Commission and continue to promote a responsible approach by their customers. https://www.gamblingcommission.gov.uk/authorities/guide/codes-of-practice
