Environment Impact Area Introduction

OPERATIONS

0.0

This section asks about your environmental footprint to determine which questions are applicable later on in the assessment. It also identifies whether your company's product/service is designed to deliver a specific, material, positive environmental impact, and if so, opens the Environmental Impact Business Model section that is most applicable.

Environmental Business Model

Are your company's products/services or processes structured to restore or preserve the environment in any of the following ways? (Please note: the environmental impact of your day-to-day operations will be assessed in the remaining sections of the Environment Impact Area. This question is specifically asking about your products/services or innovative production processes.)

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.

Description of Positive Environmental Product / Service Impact

How would you describe the positive outcome for the environment created by your product/service?

Secteur agricole: Nous développons exclusivement des produits de biocontrôle et des produits certifiés utilisables en agriculture biologique qui pour leur majorité causent significativement moins de dommages à l'environnement / biodiversité que les produits phytosanitaires classiques et contribuent à préserver les équilibres. Concernant les produits du secteur hygiène: les produits qui sont labellisés Ecocert ou Ecolabel ont un impact minimisé sur l'environnement (sélection rigoureuse d'ingrédients biosourcés, utilisation d'emballages recyclables, limitation du gaspillage, diminution de l'impact lors de la fin de vie, etc.); et ils favorisent l'économie circulaire. Contribution ODD 6 (Clean water & sanitation) & 15 (Life on land).

Environmental Product or Service Impact

Is the environmental impact you've described part of your products' or services' impact (excluding packaging), or is it a part of the way that your company operates?

Companies should earn revenue from the product or service that has an environmental impact. Please do not include pro bono efforts within this section.

• The impact is created by a revenue-generating product/service line (e.g. selling non-toxic cleaning products, sustainability consultancy)

The impact is created by the company's daily operations (e.g. using non-toxic cleaning products in the company's headquarters) and not the core product/service
