Disclosure Report

Date Submitted: April 13th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Topic	Legal Entity incorporated in the Cayman Islands
Summary of Issue	Silk Grass Farms Ltd / Silk Grass Enterprises Ltd specializes in regenerative farming, land conservation, and food production. The company is registered in Belize with a parent holding company (Silk Grass Holdings Ltd.) incorporated in the Cayman Islands. The company's core business operates in Belize, with no employees or operations in any other country.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>In the last fiscal year, the overall business tax rate paid by Silk Grass Enterprises Ltd was 1.75% . A lease agreement exists between Silk Grass Farms Ltd and Silk Grass Enterprises Ltd in which the latter is responsible for all costs associated with the property including property tax. The corresponding Environmental Tax was 3% of the value of imported goods and materials.</p> <p>Income Tax would be payable at the Silk Grass Holdings US LLC level, but because Silk Grass Enterprises Ltd has been operating at a loss in 2023, no income tax was generated or payable.</p>
Impact on Stakeholder(s)	In addition to the many different aspects of value that business provides society, business has an obligation to contribute its share of taxes. This is because business exists within the context of society; its proper role is to serve society, not the other way around. Moreover, healthy businesses can only exist over the long term in a healthy society. A healthy society depends upon public expenditures made possible by taxes.
Implemented Management Practices	The Cayman Islands Company (Silk Grass Holdings Ltd) is a holding company that was established when the US taxpayers purchased Silk Grass Enterprises and Silk Grass Farms, because the prior owners owned the companies through Cayman Island holding companies. There is no tax advantage to using the holding companies, as all current P&L passes through to the US taxpayers.
