Disclosure Report
Date Submitted: April 24, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Industries at Risk of Human Rights Violations

Topic	Forced labor and human rights violations are recognized as material issues in the coffee industry.
Summary of Issue	Caravan is a UK-based restaurant and coffee roastery that directly sources coffee from farmers worldwide.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	100% of the company's coffee purchases can be traced back to the farmer.
Impact on Stakeholders	The global coffee industry has a history of forced and child labor, which subjects workers to poor working conditions, low wages, and puts children at risk for human trafficking.
Implemented Management Practices	The company has implemented an internal inventory system to ensure traceability of its coffee supply. This system enables them to track their inventory from end to end, providing information such as the origin of the coffee, the roaster, the roast profile, and other relevant details. The company maintains long-term relationships with their suppliers and holds planning meetings with larger supply partners before contracting periods. This helps to ensure clear expectations around purchases, quality, delivery times, and any impact-related data. The company conducts an annual supplier assessment to review general information, supplier traceability systems, fraud and vulnerability protection, environmental and social impact, and quality management. The company has annual reports on topics such as child and forced labor, environmental impact, and quality assurance are covered. They also visit their Tier 2 suppliers to ensure no human rights violations in their supply chain. The company has established a Supplier Code of Conduct for their Roastery and a Supplier Code of Ethics for their Restaurants to maintain ethical standards. These codes require their suppliers to adhere to and disclose that they are free from human rights and labor violations
