## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Industries at risk for human rights violations

<b>Topic</b>	Company sells jewelry with precious metals and gemstones
<b>Summary of Issue</b>	Hera Paris is a Luxury Jewelry business that uses recycled 18k RJC-CoC certified gold and lab grown diamonds and offers bespoke Jewelry products.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	Recycled gold and lab-grown diamonds represent 100% of the company's raw materials used for their products. In terms of cost value, lab-grown diamonds represent approximately 65% of the cost, and recycled gold 35%. The company's packaging is exclusively FSC-certified recyclable paperboard.
<b>Impact on Stakeholders</b>	The use of precious metals and gemstones poses a human rights risk due to the possibility that they are sourced from conflict-affected and high risk areas, where they may be used to finance conflict and/or be associated with human rights abuses in the supply chain. Specifically the mining sector has a high potential of human rights abuses given the elevated risks of fatal accidents, abusive labor practices, discrimination against women and environmental pollution and degradation.
<b>Management Practices</b>	All of the gold Hera Paris sources is recycled and certified 18 k RJC-CoC (Responsible Jewelry Council- Chain of Custody Certification from a French supplier which allows traceability of gold and avoids purchasing directly from a mine. In addition, all diamonds used by the company are SCS certified, purchased from a lab grown diamond laboratory, also avoiding company involvement with the diamond mining industry and its associated impacts while sourcing carbon neutral diamonds (required for SCS). All products are tailor made, and hand made by a partner atelier in Paris.
