

Score Aggregation Methodology & Brand List

Nutricia Bago S.A.

2023

As the B Corporation Certification is a company-level certification, the assessment of a Parent Company is required to include its subsidiaries in which it owns >50% of the shares and has a controlling interest. Depending on the operations of the certifying company, Parent Companies may roll up their subsidiaries into a single assessment or assess separately.

Regardless of whether a Certified Parent Company's subsidiaries are assessed together or separately, only distinct subsidiaries that B Lab has determined independently meet the performance requirement for certification (i.e. score of 80+ points) are eligible to use the Certified B Corporation logo and refer to themselves as Certified B Corporations.

Aggregated Scoring Methodology

Nutricia Bago S.A. and its subsidiary/ies were required to be assessed in the B Impact Assessment and undergo a review by B Lab staff. The entities were divided into two assessments, and the overall score was calculated using a weighted average based on employee-based weighted average of its underlying assessments. The two assessments are as follows:

- Nutricia Bago S.A.
- Kasdorf SA

Based on the weighted average, Nutricia Bago S.A. scored an overall 91.9 out of 200 total available points. The minimum verified score required for B Corp Certification is 80.

The table below shows the scores for the individual assessments:

Legal entity/Company name	BIA Score
Nutricia Bago S.A.	95.1
Kasdorf SA	89.1

Brands

Brands that are not distinct operating subsidiaries included in the Parent Company's certification are not Certified B Corporations themselves but may use the Certified B Corporation logo if B Lab has determined they have independently met the performance requirement for certification. Otherwise, the Certified B Corporation logo shall only be used in reference to the brand as part of the Parent Company's certification.

Brand List

For a list of brands under Nutricia Bago S.A. that have been determined to have met the performance standards for certification (i.e. score of 80+ points) independently and can therefore use the B Corp IP, see the table below.
