

TrustedHousesitters Limited

Disclosure Report
Date Submitted: July 15th, 2024

© B Lab 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Tax Reduction Through Corporate Structure

Topic	Legal Entities incorporated in Guernsey and Tax Losses
Summary of Issue	TrustedHousesitters Limited's parent company (Felix Topco Limited) is incorporated in Guernsey. The company is resident in England for tax purposes as it is managed and controlled from the UK - all employees and operations are based in the UK. The decision to incorporate the parent company in Guernsey has not reduced the overall tax burden of the company's group. In compliance with the UK tax legislation, all tax returns and filings are reported to English tax authorities.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The company has historically been loss making and as such, in line with UK tax requirements, has not paid corporation tax, with all profits being reinvested into growth. This will be the case for FY23 as well, but as they grow and profits grow, the company will start paying corporation tax in the UK once they are eligible to do so.
Impact on Stakeholders	In addition to the many different aspects of value that business provides society, business has an obligation to contribute its share of taxes. This is because business exists within the context of society; its proper role is to serve society, not the other way around. Moreover, healthy businesses can only exist over the long term in a healthy society. A healthy society depends upon public expenditures made possible by taxes.
Implemented Management Practices	TrustedHousesitters' corporate structure and tax compliance ensures that taxes are paid at subsidiary level in the territories where it operates and employs individuals.
	Felix Topco Limited was not incorporated in Guernsey to mitigate the overall tax burden of the company's group. All employees and operations are based in the UK which ensures that TrustedHousesitters (and all other English tax resident entities in the group) are managed and controlled from the UK. When these companies return to a taxable profit position, they will pay corporation tax in the UK on their trading profits at 25%.
