Disclosure Report
Date Submitted: July 30th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Category: Other Disclosure Industries

Topic	Clients in Controversial and Ineligible Industries
Summary of Issue	XinerLink has clients in the following industries: Fossil Fuels, Gambling, Mining, Pharmaceuticals The types of services/products offered to these clients include: - HR related services
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the last fiscal year, 0.01% of the company's annual revenue was from clients in Pharmaceuticals, 2.24% from Mining, 0.15% from Gambling and 3.79% from Fossil Fuels.
Impact on Stakeholders	Companies that work with clients in controversial industries can directly or indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. Companies offering certain types of services and products to controversial clients are required to have at minimum a grievance/complaints mechanism and a whistleblower protection policy.
Implemented Management Practices	B Lab has been able to verify that the company has the necessary mechanisms in place to manage the risks related to their business relationships with clients in controversial and ineligible industries, in line with B Lab's requirements (see link below). This includes: - A mechanism for internal and external stakeholders to raise grievances; - A policy that is shared with individuals who raise a grievance, containing information related to the grounds for accepting a grievance and how their grievance will be dealt with, as well as related timelines; - A Whistleblower Policy that establishes the company's commitment to protecting whistleblower identity as well as the processes and controls in place to protect stakeholders who raise grievances from any form of retaliation.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation

Issue Date	2024-2025
Topic	Litigations/Complaints/Penalties related to Labor
Summary of Issue	These legal proceedings before the Labor Courts involve companies seeking the annulment or reduction of fines issued by labor inspectors. These penalties relate to discrepancies in work schedule compliance, the formatting of absence notices, and statutory obligations under subcontracting and temporary service arrangements (specifically within maintenance and branch roles). One case involving was operationally closed after a successful review resulted in a 50% reduction of the original fine prior to payment. Additionally, a class action lawsuit has been filed seeking the recovery of unpaid overtime and night shift premiums for the affected group of workers. 400 cases were lodged with the Labor Directorate and 40 individual litigation cases have been registered with the court.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The financial impact amounts to approximately 1-5% of the company's annual revenue in the last fiscal year.
Impact on Stakeholders	Health, safety and financial impact on the employees involved.
Resolution	Most cases were resolved through payment and penalties. Some cases remain pending verdict.
Implemented Management Practices	Legal proceedings in Labor Court. Reviews have been implemented in labor compliance procedures.
