

Score Roll Up Methodology Ecotone 2022

As the B Corporation Certification is a company-level certification, the assessment of a Parent Company is required to include its subsidiaries in which it owns >50% of the shares and has controlling interest. Depending on the operations of the certifying company, Parent Companies may roll up their subsidiaries into a single assessment or assess separately.

Regardless of whether a Certified Parent Company's subsidiaries are assessed together or separately, only distinct subsidiaries that B Lab has determined independently meet the performance requirement for certification are eligible to use the Certified B Corporation logo and refer to themselves as Certified B Corporations.

Aggregated Scoring Methodology

Ecotone and all of its subsidiaries were required to be assessed in the B Impact Assessment and undergo a review by B Lab staff.

Ecotone and its subsidiaries were divided into seven assessments, and the overall score was calculated using a weighted average based on headcount.

The seven assessments are as follows:

- Abafoods
- Allos Hof Manufaktur
- Biogran
- Bjorg
- Ecotone UK
- French HFS
- Wessanen UK

Ecotone scored an overall 116.5 out of 200 total available points. The minimum verified score required for B Corp Certification is 80.

The table below shows the scores for the individual assessments:

Legal entity/Company name	BIA Score
Abafoods	117.3
Allos Hof Manufaktur	118.5
Biogran	114.7
Bjorg	113.9
Ecotone UK	112.6
French HFS	120.2
Wessanen UK	111.5

Brands

Brands that are not distinct operating subsidiaries included in the Parent Company's certification are not Certified B Corporations themselves, but may use the Certified B Corporation logo if B Lab has determined they have independently met the performance requirement for certification. Otherwise, the Certified B Corporation logo shall only be used in reference to the brand as part of the Parent Company's certification. For a list of brands under Ecotone, see below.
