

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: CLA Consulting

Date Submitted: 01/27/2023

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: CLA Consulting UPDATED AS OF: 01/27/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Other - Clients in Controversial Industries
TOPIC	Company has clients in the mining industry
SUMMARY OF ISSUE	CLA Consulting provides Education & Training Services. Some of their clients are in the mining industry, which is considered controversial by B Lab.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In 2021, around 7.5% of the company's revenue came from clients in the mining industry
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
IMPLEMENTED MGT PRACTICES	CLA consulting does not have a position to work with clients in sensitive industries (including efforts to move away from potentially sensitive industries), neither policies or practices to carry out due diligence on the clients it works with to ensure that the services provided by the company are not used to harm people and the environment.
