FiftyEight

Disclosure Report

Date Submitted: September 5th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Biodiversity Impacts	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Chemicals	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Other	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Operations located in Conflict Zones

Topic	Company operates and has suppliers located in Conflict Zones
Summary of Issue	<p>Fifty Eight is a research and technology solutions company located in the UK. The company is dedicated to improving global working conditions by addressing issues such as modern slavery, child labour, and worker exploitation in the supply chain. It has a Tier 1 supplier in the Democratic Republic of Congo (DRC), specifically in North and South Kivu, as well as in Addis Ababa, Ethiopia. The company partners with local research and consultants to investigate child labor in Artisanal Mining in the DRC and to research the Worst Forms of Child Labor in small scale sesame farming in Ethiopia, as part of its partnership with the Partnership Against Child Exploitation (PACE).</p> <p>According to the Global Conflict Tracker, the DRC and Ethiopia are areas of conflict due to internal conflict and political instability. The company has previously conducted research through partnerships in areas classified as conflict zones, such as the Central African Republic and Myanmar, among others.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>The company does not employ workers in areas of conflict zones. During the fiscal year 2023, approximately 2% of the company's research budget has been allocated to research in conflict zones.</p>
Impact on Stakeholders	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p>
Implemented Management Practices	<p>The company's research work is funded by the Foreign, Commonwealth & Development Office (FCDO). All local research consultants in conflict zones must adhere to the</p>

	company's standard and due diligence requirements. This includes anti-corruption mechanisms, minimum supplier requirements, FCDO Terms and Conditions, social/environmental requirements, Whistleblowing Policy, Child Safeguarding Policy, Procurement and Ethical Sourcing Policy, and Safeguarding Policy for Staff, Workers, and Volunteers.
