

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Alcohol
TOPIC	Company sells alcohol products
SUMMARY OF ISSUE	New Seasons Market is a grocery store that earns a material amount of revenue from the sale of alcohol

SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In the previous fiscal year, 7.5% of New Seasons Market's revenue was earned from the sale of alcohol
IMPACT ON STAKEHOLDER(S)	Alcohol may have a negative impact on the health and well-being of individuals and their communities
IMPLEMENTED MGT PRACTICES	The company complies with all of the regulations and laws related to the sale of alcohol in the jurisdictions in which it operates.  All wine & beer staff are required by law to have an OLCC "Alcohol Service Permit". To earn the permit, one has to pass a virtual class which includes extensive instruction on whom not to sell alcohol to.  All staff and those who operate registers are required to complete a training prior to selling alcohol. Additionally, we conduct an annual re-training, both which are stored in employee's files
OTHER MANAGEMENT COMMENTS	As a way to incentivize staff to follow guidelines, we recognize staff who pass alcohol stings with \$100 gift cards.

DISCLOSURE QUESTIONNAIRE CATEGORY	Recalls
TOPIC	Recalls due to quality control matters
SUMMARY OF ISSUE	24 recalls in the last 5 years related to quality control matters
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	23 recalls due to undeclared allergens, 1 due to foreign materials, 1 due to E. coli contamination

Illness were reported only for the E.Coli recall on 11/9/2019
IMPLEMENTED MGT PRACTICES	NSM & NLCM continue to create checks at critical points, such as labeling. The company systematically clears out data in its system that contains discontinued or inactive PLU codes, so incorrect labels cannot be printed. The company has updated (and continues to update) its existing scale data through targeted audits to correct ingredient and allergen issues.
