Disclosure Report

Date Submitted: April 4th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Tax Advisory Services

Disclosure Questionnaire Statement	
Topic	Accounting firm provides tax-related advisory services to clients
Summary of Issue	<p>Griffin Audit Limited, also known as Griffin Chartered Accountants, is based in Exeter, UK, and provides a broad range of services such as accountancy services, independent examinations, and audit services. The company's tax advisory services are limited to UK tax matters and are delivered alongside its broader accounting engagements. Activities fall into two main categories: (i) compliance services, including the preparation and submission of corporation tax returns, VAT returns, and self-assessment tax returns to HMRC; and (ii) advisory services, primarily focused on ensuring tax compliance and identifying applicable reliefs under UK tax legislation. Advisory support is generally provided in conjunction with account preparation services rather than as a standalone offering.</p> <p>The client base for tax advisory services consists predominantly of local small and medium-sized enterprises (SMEs). While the company also serves charities and academies, these entities typically have minimal demand for tax advisory services. The company does not currently have multinational corporations (MNCs), high-net-worth individuals (HNWIs), or international clients in the context of tax advisory.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Approximately 15% of annual compliance fees can be attributed to tax-related work within bundled accounting and compliance engagements. On an overall basis, revenue derived from tax return preparation and advisory services is estimated to account for approximately 8% of the company's total income.
Impact on Stakeholders	Businesses have an obligation to contribute their share of taxes. This is because business exists within the context of society; its proper role is to serve society, not the other way around. Moreover, healthy businesses can only exist over the long term in a healthy society. A healthy society depends upon public expenditures made possible by taxes. These public expenditures benefit businesses in both direct and indirect

	<p>ways. B Lab recognizes fair payment of taxes as a material business issue and has a Framework for Evaluating Tax Strategies for B Corp Certification.</p>
Implemented Management Practices	<p>Griffin Chartered Accountants' services are consistent with the principles that (1) the amount of overall taxes paid over time appropriately reflects the actual amount of income generated by the client, and (2) the amount of taxes paid over time in each jurisdiction appropriately reflects the actual operations of the client in that jurisdiction.</p> <p>The company's tax advisory services are conducted within a regulated professional framework that requires adherence to established ethical and technical standards. As a member of the Institute of Chartered Accountants in England and Wales (ICAEW), the company is subject to the Professional Conduct in Relation to Taxation (PCRT), which mandates that tax advice reflects the underlying economic reality of a client's income and activities. Within this framework, tax advice is structured to align with the actual income generated by clients over time and to correspond with the substance of their operations in the relevant jurisdiction. The company's exclusive focus on UK tax, a jurisdiction with comprehensive regulatory oversight, further supports alignment between tax positions taken and the client's real economic presence and activities.</p> <p>Tax returns are subject to a multi-level review process, involving preparation by one team member and subsequent review by both a manager and a partner, providing layered oversight. Staff receive ongoing training covering tax legislation, ethical standards, and the identification of potential tax avoidance risks.</p> <p>Where potential irregularities are identified, escalation procedures include the filing of Suspicious Activity Reports (SARs) and, where necessary, disengagement from clients unwilling to rectify identified issues. In addition, all staff are required to complete annual "fit and proper" and independence declarations, reinforcing individual accountability.</p> <p>These internal controls operate alongside mandatory compliance with the PCRT and the ICAEW Code of Ethics, both of which establish expectations in regards to tax advisory</p>

	services. The company operates within a highly regulated UK environment and does not engage in lobbying activities or provide tax advice linked to wealth or investment management services, further limiting exposure to higher-risk tax structuring practices.
