

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: SARASTYLE UPDATED AS OF: 05/17/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Industries at risk for human rights violations
ТОРІС	Company sells jewelry with precious metals and precious stones
SUMMARY OF ISSUE	SARASTYLE produces and sells jewelry made of pearls, silver, gold, and brass. Companies that purchase such resources such have a higher risk of encountering social and environmental issues in their supply chains, as these resources are often sourced associated with mone laundering, human rights violations, and contributions that fund armed conflict (directly of indirectly), which are material risks present in the industry.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In fiscal year 2022, 100% of the company's revenue was earned from the sale of its jewelry. In the same period, 56% of the company's suppliers of precious gemstones and metals (pearls silver, gold, and brass) were Responsible Jewellery Council (RJC) - Chain of Custody (CoC certified.
IMPACT ON STAKEHOLDERS	The sourcing of precious gemstones and precious metals jewelry poses risks such as human rights violations, armed conflict, and money laundering, as these minerals might come from areas of conflict and exploitation. Child labor and exploitation are other related risks to sourcing precious minerals.
IMPLEMENTED MGT PRACTICES MANAGEMENT COMMENTS	 SARASTYLE reported that has taken steps to ensure a more than 50% of the raw materials purchases are traceable and have third-party certifications verifying that they are ethically sourced. The majority of the company's suppliers (~56%) are RJC CoC certified. RJC's standards enable companies to integrate responsible business practices into their management systems and daily operations, in particular commitments to responsible sourcing standards and respect for Human Rights. The Chain-of-Custody (CoC) certification complements certification against the RJC's Code of Practices. The CoC standard defines an approach for companies to handle and trade gold, silver, and platinum group metals in a way that is fully traceable and responsibly sourced. SARASTYLE conducts supplier screenings that consider ESG criteria, The company has a Supplier Code of Conduct in place which is applicable to the company's direct and indirect suppliers. All the company's suppliers have signed the Code. The document covers the following topics: Labor standards and social responsibility (prohibiting any form of child and forced labor, human trafficking, corporal punishment, physical, sexual, verbal or psychological harassment,or discrimination; ensuring fair salaries, benefits, and health and safety conditions), Environmental Compliance (Requiring compliance with local laws and regulations; committing to improve the environmental performance of production sites and production resources, increasing the amount of recycled input used) Code of Ethics and Business Integrity (zero tolerance with corruption-related practices, transparency). The company has a Recycling program to recycle its old products and reintroduce the materials in its production process.
