Disclosure Report

Date Submitted: October 24th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Clients in controversial industries

Topic	Clients in the Fossil Fuel industry.
Summary of Issue	<p>Cullen Communications is a PR agency that delivered PR and Communications Services to a fossil fuel retailer in Ireland between 2020-2022. The company no longer works with this client. Although the company's service is not specifically designed to mitigate the negative impacts of the fossil fuel industry, part of its service involved education on a variety of sustainability issues and including the transition towards alternative energy sources.</p> <p>The company's PR services can be sold to clients in both controversial as well as noncontroversial industries, and all clients are charged a standard agency rate regardless of profits.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In 2022, services provided to clients in the fossil fuel industry represented 3.7% of the company's revenue in the last fiscal year. In 2021, it represented 14.9%, and in 2020, 8.8% of the company's annual revenue.
Impact on Stakeholders	<p>Companies serving clients in controversial industries have the potential to further the negative social and / or environmental impacts of the controversial industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	Cullen Communications carries out strict due diligence on all clients with which it works (as well as suppliers and other partners) and will not work with any company with which it does not share the same values. In addition, the company does not work with any companies whose values conflict with those of its individual employees, e.g. clients that are not committed to diversity and inclusivity. Cullen Communications has turned down work from clients in other controversial industries such as tobacco and gambling, and has made a decision to move away from these industries, as well as the fossil fuel industry.
Management Comments	Cullen Communications reaffirms its commitment to supporting

the client in its sustainability journey, emphasizing carbon-offsetting projects. To mitigate the risks associated with clients in controversial industries, the company applies a rigorous screening process for new clients and will avoid working with clients in the fossil fuel sector.
