Disclosure Report

Date Submitted: July 24th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant layoffs of >20% of workforce

Issue Date	January 2023
Topic	Significant layoffs due to Company needs.
Summary of Issue	Of the expenses accumulated from 2020 to 2023 inclusive, 39% respond to voluntary departures by workers (resignations), 40% due to company needs, 8% cases by mutual agreement and 13% due to expiration of Fixed deadlines for operational roles. In the case of involuntary dismissals due to company needs, they respond to departures due to poor performance and breaches of employment contracts.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	During 2023, we had 17 involuntary discharges, which represent 30% of the annual total.
Impact on Stakeholders	Primary impact was loss of employment for affected employees.
Implemented Management Practices	Yes, whenever separations occur, the law is complied with based on the payments that must be made. Full compensation has always been paid in accordance with current legal regulations.
Related Incidents (Yes/No)	We do not have an established process for rounds of dismissals. The exits we had were voluntary and involuntary exits. In the case of voluntary departures, they are people who decided to leave the company, in the case of involuntary departures, they respond to departures due to poor performance or changes in structure.
