

Garces Fruit

Disclosure Report

Date Submitted: August 7th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☒	☐
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒
Illegal Products or Subject to Phase Out	☐	☒
Industries at Risk of Human Rights Violations	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category:

During its B Corp Certification journey, **Garcés Fruit** had the following topics flagged:

Penalties Assessed For Environmental Issues

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration and Penalties

Issue Date	2021
Topic	Unauthorized felling of native forest
Summary of Issue	Complaint filed by CONAF (National Forestry Corporation in Chile) for unauthorized felling of native forest. The case was heard before the Local Court, which imposed a penalty and ordered reforestation of an area equivalent to the affected one. The company appealed this ruling, but it was upheld by the Court of Appeals.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The penalty paid represented less than 1% of the company's revenue. As for the affected area, it was 13 hectares.
Impact on Stakeholders	Unauthorized felling of native forest can lead to deforestation, biodiversity loss, and other negative environmental impacts.
Implemented Management Practices	The company paid the penalty and reforested the area with species equivalent to those cut down. For this purpose, a reforestation and native tree expert was hired to assist with the reforestation plan. After the incident, the company started conducting an induction training for the farm managers, highlighting the importance of respecting the area's native flora and fauna.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Biodiversity and/or Monoculture

Garces Fruit is involved in activities that could affect local biodiversity, meaning that they are more likely to have significant impacts on the environment given its interference with the balance of local fauna and flora. Certified B Corps are required to make transparent their involvement in such practices.

For more information about the company's practices regarding this topic, please visit the company's webpage/ sustainability report, accessible [here](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive Industry

Garces Fruit is involved in the production/sale of products, or is part of an industry that can potentially be classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

For more information about the company's practices regarding this topic, please visit the company's webpage/ sustainability report, accessible [here](#).
