

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

## **B Corp Certification - Disclosure Questionnaire Documentation**

PROVIDED BY: UPSTRÖM ApS UPDATED AS OF: June/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Litigation, Arbitration, and/or Penalties
ISSUE DATE	2020, 2022
TOPIC	Litigation related to Intellectual property infringement.
SUMMARY OF ISSUE	UPSTRÖM ApS hUPSTRÖM, is a Danish impact start-up that develops consumer electronics aligned with a circular economy and innovative product designs.
	In the last 5 years, the company faced two accusations of infringing intellectual property on competitors' product designs, which triggered legal disputes. One of the cases has already been settled without any penalty imposed to the company; one case is pending and assessed with a remote probability of loss.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	One of the cases was settled without any penalties applied (no financial impact). The pending case amounts to DKK 25,000, which represents, approximately, 24% of the company's revenues.
IMPACT ON STAKEHOLDERS	Their competitors are the stakeholders potentially affected on both cases.
RESOLUTION	One of the cases was settled without any penalties applied (no financial impact). The pending case was assessed with a remote probability of loss.
MANAGEMENT PRACTICES	Company's New Product Development (NPD) department has a research process in place to ensure their designs are not infringing on any active design registrations, trademarks or patents.
MANAGEMENT COMMENTS	In the case that was settled, the company's competitor, who had filed the lawsuit against them, swiftly recognized that there were no grounds to support their claim. Consequently, they approached the company with the intention to settle the matter, acknowledging that the company had not engaged in any wrongdoing.
RELATED INCIDENTS (YES/NO)	No.
