

Transparent Disclosure

GIVO Ltd (GIVO Africa) is a technology-enabled waste management and recycling company established in 2021 and operating in Nigeria and Liberia. GIVO focuses on reducing plastic pollution, promoting responsible waste-management practices, creating economic opportunities within underserved communities, and supporting the transition to a circular economy.

GIVO operates community-based recycling activities supported by cloud-based technology for recording and monitoring waste collection, recycling activities, material volumes and depositor participation. The company also uses incentivised recycling and environmental education to encourage responsible waste practices and behavioural change.

GIVO is committed to transparent and responsible communication of its business activities and environmental and social impact. Information communicated to stakeholders is intended to be accurate and supported by relevant operational records, with actual results distinguished from targets, estimates and projections where applicable.
