

Fig Tech Inc

Disclosure Report

Date Submitted: October 8th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒
Illegal Products or Subject to Phase Out	☐	☒

Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration, and/or Penalties

Issue Date	2024
Topic	Penalty related to regulatory compliance
Summary of Issue	In November 2024, the State of Florida Office of Financial Regulation (OFR) issued an administrative complaint against FigTech Inc. following a routine license examination. The complaint alleged certain compliance or licensing issues; however, FigTech disputed the regulator's findings, maintaining that it had not engaged in any wrongdoing.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	As part of the settlement, the company paid a fine of \$20,450, which equals about 1.69 % of its 2024 revenue.
Impact on Stakeholders	The stakeholders impacted are FigTech Inc.'s management and employees, particularly those in compliance and legal roles.
Resolution	To avoid a prolonged dispute, the company opted to settle the matter with the OFR, bringing the case to a close without admitting fault.
Management Practices	FigTech implemented a stronger change management process to ensure all system and policy updates are properly reviewed, approved, and documented. This aims to prevent similar compliance issues from recurring by improving oversight, minimizing human error, and ensuring any operational or regulatory changes are fully assessed before implementation.
Related Incidents (Yes/No)	No
