

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Love Cocoa Ltd. UPDATED AS OF: 04/05/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Industries at Risk of Human Rights Violations
TOPIC	Forced labor, child labor, and human trafficking risks in cocoa/chocolate industry
SUMMARY OF ISSUE	Love Cocoa Ltd sources 100% of its cocoa from Luker Chocolate, a family owned business based in Bogota, Colombia. They harvest their own beans and work alongside other cocoa farmers to create long-term, sustainable relationships. The supplier aims to provide transparent and traceable cocoa with the aim of adding value to every link in the supply chain through a farm to bar approach.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of the company's cocoa purchases can be traced back to the farmer.
IMPACT ON STAKEHOLDERS	The global cocoa industry has a history of forced and child labor, which subjects workers to poor working conditions, low wages, and puts children at risk for human trafficking.
IMPLEMENTED MGT PRACTICES	The company's management team receives regular reporting on the supplier's work towards being slave free and they travel regularly to Colombia to visit the factory and review working conditions. Although the supplier does not have a third party Certification, it has its sustainability plan called the "Chocolate dream" (link below) for ensuring best practices are met. By collaborating with local government, international NGOs (such as USAID) and other stakeholders to deliver its sustainability plan, the supplier intends to promote positive change within the industry. In addition, through the Luker Foundation the supplier invests in local community projects such as The Cacao Effect which is a program that aims to improve the lives of cocoa farmers and their families by promoting social development, education, and research in cocoagrowing regions - thereby strengthening the cocoa production chain.
REPORT	https://www.lukerchocolate.com/en/beyond-sustainability/
OTHER MANAGEMENT COMMENTS	We are fully committed to upholding the highest ethical and environmental standards throughout our operations. We recognize the potential for human rights violations within the cocoa industry, particularly in the areas of child labour and forced labour. As such, we would not hesitate to terminate a relationship with a supplier if we discover instances of human rights violations as these practices are abhorrent to our organization.
