

Fourtold Holdings

Disclosure Report
Date Submitted: January 8th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	Fourtold Holdings is a company that provides services to clients in controversial industries such as Agribusiness producers in Brazil and Pharmaceuticals. For Agribusiness producers in Brazil the company provides services to D&I, HR and Communications teams to the Group Headquarters. Fourtold Holdings works with the client to develop content and assets (digital brochures, presentations, infographics and videos) to help communicate D&I stories across the company. For the Pharmaceutical clients, Fourtold Holdings worked with the client to develop their social media messaging and positioning around the positive human and societal impact of their medical interventions.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Clients in the Agribusiness producers in Brazil accounted for 6% of revenue in 2022, 25% of revenue in 2021 and 14% of revenue in 2020. Clients in the Pharmaceutical industry accounted for 1% of revenue in 2022, 2% of revenue in 2021 and 1% of revenue in 2020.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The services/products provided to clients in these industries have the potential impact to reduce the negative aspects by helping them to showcase the positive results of their work as part of their overall ESG strategy and goals.
