About Andreu World

Andreu World is a global family-owned company. For 65 years, the company – winner of the Spanish National Design Award – has developed a solid industrial culture based on the manufacture of high quality and comfortable seating and tables for work, corporate and public spaces, as well as for outdoors, hotels, cafeterias and restaurants. With a firm commitment to spreading the culture of design, it works with internationally renowned designers and architects and throughout its history, it has been awarded recognized international design prizes such as the Red Dot Design Award, Best of NeoCon, Wallpaper Awards. Good design, production capacity and commitment to sustainability are also its hallmarks. The company has promoted a culture of environmentally responsible production that allows it to manufacture its products solely with wood from certified and reforested forests that have been certified by the FSC® (Forest Stewardship Council). It has 30 single-brand showrooms worldwide and shared brand exhibition spaces in Europe, Oceania, Asia and America. Andreu World is a Carbon Neutral company and 100% of its products – 6,830 designs in the catalog – are designed and manufactured in the circular economy, with Cradle to Cradle certification, which certifies that all materials and finishes are free of restricted substances (BLS), manufactured without materials that are harmful to health. In addition, it has been “eco-designing” for more than a decade for durability and to give a second life to our products. It invests in R&D&I to achieve sustainable processes to create responsible designs. It produces its own 100% recycled, recyclable, sustainable and BIO® materials and was the first company to use bioplastics in the manufacture of furniture.
