Disclosure Report

Date Submitted: August 28th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Penalty

Issue Date	2020/2022
Topic	Penalty related to Labor Administration
Summary of Issue	OpenClassrooms was convicted by the Labor Administration for non compliance with the work time regulation meaning no process to follow the work time of its employees was implemented in 2020, which was a legal requirement at the time.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In 2022, the company was fined, for an amount representing less than 1% of the company's revenue.
Impact on Stakeholders	As the company did not have a system in place to track daily working hours of their employees, the company was unable to ensure employees were not overworking. This impacted the company's employees located in France.
Resolution	The company paid the fine and implemented a new system to ensure compliance with legal requirements.
Management Practices	OpenClassrooms has implemented collective agreements on working hours in order to be able to track the working hours of certain groups of employees. In addition, the company has redefined the categories of employees subject to this regulation and implemented a time tracking tool via ADP.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant Layoffs of >20% of the Workforce

OpenClassrooms experienced significant layoffs of more than 20% of the workforce within the last five years. Certified B Corps are required to make transparent when such practices have occurred.
