

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Fair Trade Jewellery Co. UPDATED AS OF: December 6, 2021

DISCLOSURE QUESTIONNAIRE CATEGORY	Industries at Risk of Human Rights Violations
TOPIC	Company produces jewellery using precious metals, diamonds, and gemstones
SUMMARY OF ISSUE	Fair Trade Jewellery Co. manufactures jewellery made from precious metals, diamonds, and gemstones, which are raw material supply chains generally recognized as posing a human rights risk.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Approximately 54% of the company's supplier expenses are from precious metals, diamonds, and gemstones.
IMPACT ON STAKEHOLDERS	The use of precious metals and gemstones poses a human rights risk due to the possibility that they are sourced from conflict-affected and high risk areas, where they may be used to finance conflict and/or be associated with human rights abuses in the supply chain.
IMPLEMENTED MGT PRACTICES	Fair Trade Jewellery Co. sources gold that is certified recycled from a Responsible Jewellery Council Certified (RJC Certified) refiner, and artisanal gold certified under the Fairmined standard. Its diamonds are either recycled, lab-grown, or sourced directly from Canada. Its gemstones are either recycled, lab-grown, or sourced from suppliers in Sri Lanka, Australia, Madagascar, or the U.S. The company chooses those origins because the gems are cut and polished in the country of origin orin the case of Australia, they are pre-formed in Australia and then finished in Thailand. Origins are verified by an independent, ISO certified Gem lab in New York and those origins are listed on the certificates they issue for each gem.
REPORT	"Fair Trade Jewellery Co. was recognized by Human Rights Watch for exceptional work in supply chains (see: https://www.hrw.org/report/2018/02/08/hidden-cost-jewelry/human-rights-supply-chains-and-responsibility-jewelry) "
