## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Others - Clients in Controversial Industries

<b>Topic</b>	Company serves a client in the defense sector
<b>Summary of Issue</b>	The Forward Institute is focused on organization and systems change. The company works with organizations that want to become more responsible and purposeful; this includes the British Army (since 2015) and BAE Systems (during 2023).
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	In 2023, The Forward Institute derived 9% of its annual revenue from the defense sector
<b>Impact on Stakeholders</b>	Companies that provide services to clients in the defense sector are controversial because their services could be misused in ways that may harm others
<b>Implemented Management Practices</b>	<p>The company works with sectors where it believes it can support them to be more responsible and purposeful; this includes defense. The company wouldn't work with organizations where it believes that their business model is such that however 'responsibly' they led their business, this could never overcome the negative effect they have on society eg. the tobacco industry. The company has a corporate partnerships policy which outlines its approach to working with potentially controversial clients.</p> <p>The company has regular conversations with senior leaders at the British Army and BAE systems to ensure that the impact the company is having is as purposeful as possible.</p>
