

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: R-Go Tools

Date Submitted: 04/26/2023

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

R-Go Tools

UPDATED AS OF:

04/26/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Supplier Chain Disclosure
TOPIC	Prison Labor
SUMMARY OF ISSUE	R-Go Tools is a company that develops ergonomic products. One of their products, the steel laptop stand, was produced using local prison labor in the Netherlands as part of a government's programme. The practices adopted in the production could not be verified to be in line with B Lab's Prison Industry and Labor Controversial Issue Position Statement.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In 2022, 0.5% of the company's revenue came from the sales of steel laptop stands produced using prison labor. The company declares to stop working with said supplier and compromised to no longer work with suppliers associated with prison labor.
IMPACT ON STAKEHOLDERS	While some stakeholders have indicated that prison labor is inherently unjust or coerced, others have highlighted the potential benefits of such programs, such as the potential to assist people who are incarcerated to reintegrate into society. Among the risks and issues involved in prison labor arrangements highlighted by ILO are coercion, wages, work conditions, health and safety and post-release benefits.
IMPLEMENTED MGT PRACTICES	The company has terminated their relationship with the supplier with immediate effect.
