

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Bluebird Botanicals
Date Submitted: 07/31/2023

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.		
Animal Products or Services		✓

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

Bluebird Botanicals

UPDATED AS OF:

07/31/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Cannabis-derived products
TOPIC	Hemp-Derived CBD supplements and cosmetics
SUMMARY OF ISSUE	Bluebird Botanicals sells supplements and cosmetics made with legal hemp extracts that are high in CBD (Cannabidiol.)
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of the company's 2022 revenue came from CBD related products. There are 11 employees working remotely.
IMPACT ON STAKEHOLDERS	Current regulations governing the legality of cannabis-derived products are complex in the United States due to variety of federal, state, and local laws. Thus, the legal landscape around such products, particularly CBD, remains somewhat ambiguous at this time. There are many companies legally marketing CBD products, which are designed to be non-psychoactive. While the risk of criminal prosecution may be low or negligible, B Lab encourages consumers, retailers, and manufacturers to conduct their own research based on individual circumstances to determine the legality of certain cannabis-derived products in one's jurisdiction.
IMPLEMENTED MGT PRACTICES	Bluebird Botanicals places its emphasis on quality. Given the concerns surrounding the industry, the company prioritizes its quality control program, which includes auditing and vetting farmers and ingredient suppliers. The products are manufactured in FDA cGMP-compliant facilities, and all batches undergo testing by third-party, ISO-accredited labs. Certificates of analysis are available on the company's website. The company has been involved with the Board of Directors of AHPA, the US Hemp Roundtable, and the Hemp Industries Association, working alongside policy makers and industry stakeholders to ensure there are sensible regulations and safety of hemp-derived products.
