Disclosure Report

Date Submitted: September 12th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration & Penalties

Issue Date	2019 - 2024
Topic	Consumer litigation and arbitration related to personal injury claims
Summary of Issue	In the past 5 years, the company has had a total of 8 cases of alleged personal injuries. 5 of which are still currently pending a resolution.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	While the exact settlement amounts for the resolved cases are confidential pursuant to the terms of the agreements, the total financial impact is estimated to be less than 1% of the company's annual revenue in the current fiscal year. The pending cases do not have an assigned financial value yet.
Impact on Stakeholder(s)	The impacted stakeholders are the consumers who alleged physical injuries.
Resolution	Three resolved cases were settled through confidential payments, bringing those matters to a close. The remaining cases are currently pending a final resolution.
Implemented Management Practices	In an effort to mitigate further risk and enhance visitor safety, Meow Wolf has reevaluated how visitors interact with certain high-risk features. These implemented practices include: multi-level inspections of all exhibition installations, updated assumption-of-risk language to inform guests of potential hazards such as uneven surfaces, flashing lights, ladders, and tunnels, and the installation of enhanced on-site signage designed to resemble official hazard warnings.
Other Management Comments	All Meow Wolf exhibitions are inspected by various agencies prior to opening. Over the years, Meow Wolf has updated its signage to remind guests that its exhibits contain audio-visual effects, strobe lights, or other features (e.g., ladders, tunnels, uneven floors) that may affect their physical senses and/or physical condition, such as dark spaces with stairs, low overhangs, tight spaces, flashing lights, theatrical fog effects, and exposed materials, which may result in disorientation, distraction, and other risks.
