Disclosure Report

Date Submitted: November 22nd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☒	☐
Biodiversity Impacts	☐	☒

Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	Kiandra is a software company that helps optimize the performance of other companies. We provide custom software solutions to organisations to be able to manage their business. The company reported that in the last 5 years it has worked with clients in the alcohol, firearms and tobacco industry.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In its 2022 fiscal year, Kiandra earned 5.46% of its annual revenue from the alcohol industry, 3.68% from the tobacco industry and 2.27% from the firearms industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company has stopped providing services to clients in the firearms and tobacco industry. It is committed to not working with these industries in the future. Kiandra does not have a formal policy in place to carry out due diligence of clients. It currently decides its clients on a case-by-case analysis, workers vote on whether or not a specific client should be accepted. The company shared that it is using B Lab's list of clients in controversial industries to identify industry's potential risks.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Animal Products and Services

Kiandra is involved in the production or sale of animal products and services, meaning that they are more likely to have significant impacts on the environment and animal welfare. Certified B Corps are required to make transparent their involvement in such industries.
