

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

ISSUE DATE	March 2020
TOPIC	Significant layoffs due to evolving strategic / cultural initiatives
SUMMARY OF ISSUE	We started as an educational SAAS company but we were not able to reach profitability and sustainability. In the past 5 years, our focus shifted from developing technologies to making a difference for vulnerable youth, enabling them to change their life trajectory with a high school diploma. This significant restructuration led ChallengeU to become an education service provider. Unfortunately, throughout this significant restructuration, several employees were laid off in 2018 and 2019. The restructuration was completed at the end of 2019, since then, the company became profitable, enabling ChallengeU to sustain and reinforce its mission.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In total, from 2018 to end 2019, 42 people were terminated as a result of these layoff rounds, for a total of 31% of the employees that worked over that period.
IMPACT ON STAKEHOLDERS	Primary impact was loss of employment for affected employees.
IMPLEMENTED MGT PRACTICES	Employees that were terminated were all granted a severance package, going up to a 12-week salary indemnity.
OTHER MANAGEMENT COMMENTS	The turnover has stabilized from an average of 31% over years 2018-2019 to 9% over 2020-2021.
RELATED INCIDENTS (YES/NO)	No.
