

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Servicios de Control y Gestión WTEC SPA

DISCLOSURE QUESTIONNAIRE CATEGORY	Clients in Controversial Industries
TOPIC	Company has clients in the mining, water utilities and fossil fuel industry
SUMMARY OF ISSUE	Servicios de Control y Gestión WTEC SPA is a company that offers remote monitoring, control and analysis of water and other industrial fluids to clients in mining, water utilities and fossil fuel industries.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In 2021, 13% of company's revenue came from mining and water utilities and 7% from fossil fuel (gas) industry.
IMPACT ON STAKEHOLDERS	<p>Companies serving clients in controversial industries have the potential to further the negative social and/or environmental impacts of the controversial industry.</p> <p>B Lab recognizes that companies that earn revenue from controversial industries may require the development of specific risk standards in the future to ensure that companies that work with clients in controversial industries are not contributing or profiting from the harmful impacts of the industry.</p>
IMPLEMENTED MGT PRACTICES	<p>Servicios de Control y Gestión WTEC SPA provides water management solutions to identify and track how the resource is being used, the flow, potential improvement points, and reduce water misuse/waste through mining and water utilities supply chain and operations. The company contributes to the mitigation of water waste and contamination.</p> <p>As for their services to the gas industry, the company offers remote monitoring and control tool for satellite regasification plants and LNG service stations for real-time monitoring of operational variables and enabling remote control as a security measure.</p> <p>The company directly reports to the General Directorate of Water and the Superintendency of the Environment in Chile.</p> <p>Servicios de Control y Gestión WTEC SPA does not have any policies or practices in place for carrying out due diligence of clients.</p>
