

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

## **B Corp Certification - Disclosure Questionnaire Documentation**

PROVIDED BY: GRUPO BFP SRL UPDATED AS OF: 08/10/2020

DISCLOSURE QUESTIONNAIRE CATEGORY	Facilities located in sensitive ecosystems
TOPIC	Company office is located in a town in a national park in the Argentine Patagonia region. Company also arranges tours to national parks too.
SUMMARY OF ISSUE	The company's office is located in the autonomous town of San Carlos de Bariloche which is in located in the Nahuel Huapi national park. The company's facilities are not located in the protected areas of the national park, however the company operates tours to the principal area of the national park as well as to the municipal park of LLao LLao.
	These areas have been designated as a national park and municipal park for the protection and conservation of a portion of the Andean north Patagonian forest and surrounding steppes and for promoting education, awareness of these ecosystems while encouraging harmonious integration of nature and human development.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	All land under management is located in the sensitive ecosystem. About 50% of the tours organized by the company are to the national park and the municipal park. 20% of the tours are organized in the steppes surrounding the parks.
IMPACT ON STAKEHOLDER(S)	The facilities are located inside protected/sensitive ecosystems as well as the company provides services in these ecosystems and thus can potentially impact the flora, fauna and quality of the ecosystem.
IMPLEMENTED MGT PRACTICES	The company currently has no certifications for the management of their impacts but are aspiring to certify under ISO21101 for risk management and subsequently will also apply for certifying under the Global Sustainable Tourism Council's (GSTC) standards.  The company already uses the guidelines and objectives of the GSTC standards for designing
	their processes. Through the company's sustainability policy they list out the various initiatives that the company is undertaking, including mitigation and offsetting of carbon emissions, monitoring of water consumption, monitoring and reduction of waste at source with a specific emphasis on single use plastics and promotional paper products.
