

# Don't miss out on the sustainable investment revolution

- Sustainable investing has increased every year since 2012
- Investors plan to double their sustainable investments in the next five years
- COVID-19 is accelerating the trend

## How BWD can help

We partner with you to create value from sustainability, enhancing your standing among investors and others. We do this through...

### Strategy

We can develop your climate strategy (TCFD), as well as clarify your ESG risks and opportunities through our materiality assessment process.

### Reporting

Our expert team of strategists and designers can deliver you award-winning integrated or sustainability reporting.

### ESG ratings

We can enhance your standing on the ESG ratings that matter to investors, such as the Dow Jones Sustainability Index and CDP.
