Disclosure Report

Date Submitted: September 20th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	Rotorflush Filters manufactures filters, screens, and pumps that have had clients in the Alcohol, Pharmaceuticals, Water Utilities industries. The nature of the company's services with clients in these industries has been related to making filters, and all services can be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>The revenue from clients operating in the Alcohol industry represented 2.8% in FY23-24.</p> <p>The revenue from clients operating in the Pharmaceuticals industry represented 3.3% in FY23-24.</p> <p>The revenue from clients operating in the Water Utilities industry represented 5.3% in FY23-24.</p>
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact on stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue, and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>The company does not have any positions on working with clients in sensitive industries. There are no plans or steps being taken to move away from the Company's customers who are deemed sensitive or controversial.</p> <p>The company does not have due diligence in place as the service to ensure that the services provided by the company, as the company only manufactures water filtration equipment, for water recycling, heat reclamation, and fish and eel protection at water intakes. However, the company does research on its new prospective clients and will not engage with clients that pose a potential for harm to people or the environment. The Company engages with customers to understand the intended use of</p>

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Rotorflush Filters is currently involved or has had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial or ineligible by B Lab Global: Pharmaceuticals.

While products and services provided to these clients could serve only as commonplace goods and services, by serving these clients the company may be supporting these industries. B Lab recognizes that these industries potentially have negative impacts, therefore, Certified B Corps are required to make their involvement in such industries transparent.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Alcohol

Rotorflush Filters is involved in the production or sale of alcohol. Alcohol may have a negative impact on the health and well-being of individuals and their communities, particularly in cases of over-consumption, addiction, or under-age drinking. Certified B Corps are required to make transparent their involvement in such industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive Industry

Rotorflush Filters is involved in the production/sale of products, or is part of an industry that can potentially be classified as water-intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.
