

NOVA Wealth

Disclosure Report

Date Submitted: April 8th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒
Illegal Products or Subject to Phase Out	☐	☒
Industries at Risk of Human Rights Violations	☐	☒
Monoculture Agriculture	☐	☒
Nuclear Power or Hazardous Materials	☐	☒
Payday, Short Term, or High Interest Lending	☐	☒
Water Intensive Industries	☐	☒
Tax Advisory Services	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant layoffs of >20% of workforce

Issue Date	August 2019
Topic	Significant layoffs due to restructuring of company business model
Summary of Issue	Over the last 5 years, NOVA Wealth, subsidiary of the parent company Octopus, experienced one round of significant layoffs due to a pivot of the company's business model from a focus on building software to a focus on financial planning. NOVA Wealth was a small start-up in the trial stage and was loss-making; new roles were needed to execute their new business model to ensure longevity of the company.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	18 employees were laid off, representing 28% of the company's employees at that time. 9 of these employees were placed in new roles elsewhere within their parent company, 9 left the business completely; 3 of which returned later to work for Octopus; resulting in a total of 18.75% of employees having left the company as a result of this round of layoffs.
Impact on Stakeholders	Primary impact was loss of employment for affected employees.
Management Practices	Each of the role types were assessed according to whether they were required within the new business strategy. To communicate the decision to employees, all staff were called into an all company meeting and a legal/HR representative was present from their parent company office. The CEO made a presentation detailing the change in the business plan and the reasons why certain roles had to be made redundant. The employee roles at risk of redundancy were given the opportunity to ask any questions to their HR representative, and were able to leave with no requirement to work until their consultation period was over. This process was followed by a consultation period where alternative employment opportunities in the parent company were discussed. All laid-off employees were provided with options for roles they could apply for at their parent company's head office and employees that wanted to leave the business were introduced to recruiters and were provided with positive endorsements/recommendations where appropriate. NOVA Wealth has a private medical cover that offers mental wellbeing services to laid-off employees if they need it.
Related Incidents (Yes/No)	No, no other significant layoffs over the last 5 years.
