

## KTG Suisse

Disclosure Report  
Date Submitted: June 10th, 2025

## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

### B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

## Disclosure Questionnaire Category: Other - Disclosure - Marketing of Breastmilk Substitutes

<b>Issue Date</b>	Ongoing
<b>Topic</b>	The company provided marketing services to breastmilk substitute clients
<b>Summary of Issue</b>	<p>KTG Suisse is a supermarket based in Switzerland that, among the products they sell, also sells and distributes Breastmilk Substitutes from birth, for infants of 6 months, 10 months, and 12 months. The company sells European brands such as Holle and Babybio.</p> <p>B Lab recognises the marketing of breastmilk substitutes as a controversial industry and, as such, has implemented additional risk standards for companies working in this sector.</p>
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	The company currently sells 6 breastmilk substitute products. In FY2023, revenue from clients in the breast milk substitute industry accounted for less than 1%.
<b>Impact on Stakeholders</b>	The marketing practices of companies involved in the production and sale of breastmilk substitutes (defined by the WHO as products for infants aged 36 months and under), are controversial because of the risk that certain marketing practices may create an undue influence on a mother's choice to breastfeed, which could in turn negatively impact the health of infants.
<b>Implemented Management Practices</b>	<p>KTG Switzerland does not currently have a formal policy on the marketing of breast-milk substitutes (BMS). The products that fall under the breastmilk substitute category can be seen in the link below. All 5 products have the following statement on the front of their packaging: "Breastfeeding is best for your baby."</p> <p>In Switzerland, where the company operates, there is a public health policy that actively promotes breastfeeding, supported by national campaigns, in particular by the Swiss Foundation for the Promotion of Breastfeeding. This policy is also reflected in indirect measures, such as unfavorable import taxes on breast-milk substitutes, which encourage the promotion of breastfeeding.</p>

	The company is in the process of drawing up an exhaustive list of the products they market that could be considered as Breastmilk substitutes or complementary foods according to the WHO definition
