## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Other Disclosure Industries

Topic	Volunteer Placement to Orphanages
Summary of Issue	<p>Impact Explorers is an organization based in the UK that organized volunteer-abroad programmes across many countries.</p> <p>As part of its services, the company also organizes volunteer programs at childcare facilities in several countries focused entirely on community-based childcare initiatives, including government schools, daycare centers, preschools, after-school learning programs, kindergartens and holiday camps. These placements support existing local staff. The volunteers assist local childcare centres and professionals in delivering care, learning support, and activities for children — especially those from underprivileged or vulnerable communities. This supports both the development of children and capacity building for local childcare services.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	20% of the company's voluntary programs in the last fiscal year involve childcare facilities. Each of the childcare programs which ranges from 1-12 weeks has approximately 200 individuals participating.
Impact on Stakeholder(s)	<p>Volunteer programs at childcare organizations, if not managed appropriately, could potentially pose risks to children, such as disruption of development due to short-term connections with caregivers, as well as, risks to children's safety and well-being.</p> <p>For more information please see <a href="#">B Lab's position statement on Orphanage-Based Volunteer Programs</a>.</p>
Implemented Management Practices	<p>Impact Explorers has yet to formalize a policy in regards to its voluntary programs related to childcare centers. The company does however practice measures in order to ensure childcare safety and their wellbeing.</p> <p>The company applies a selection process for partner schools and childcare facilities that includes onsite visits prior to engagement. During these visits, the company verifies that facilities hold appropriate legal approvals and authorizations to operate. This process is intended to ensure that only legitimate</p>

	<p>and compliant institutions are included in the company's programs and to reduce the risk of engaging with unregulated or unsafe childcare environments.</p> <p>To safeguard children and vulnerable beneficiaries, the company requires all program participants to submit a clean criminal background check prior to joining. This screening requirement serves as a preventive control to mitigate risks related to child safety and inappropriate conduct. Participation is contingent on successful completion of this background verification.</p> <p>Volunteers are placed in structured roles and are expected to contribute approximately five hours per day, Monday through Friday, supporting continuity and stability within the orphanage or childcare setting. Volunteer activities are supervised by local officials, who oversee daily operations and assign tasks to ensure volunteers contribute to essential, ongoing needs rather than ad hoc or unsupervised interactions with children.</p> <p>The placements are designed to rely on sustained volunteer involvement to complete daily operational tasks, which helps maintain consistency and reduces disruption to children's routines. Company employees do not directly participate as volunteers; instead, they conduct periodic monitoring visits to ensure that programs are functioning as intended and that operational and safeguarding standards continue to be met.</p>
