Disclosure Report

Date Submitted: May 21st, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Alcohol

Issue Date	Ongoing
Topic	Company produces and sells alcohol products
Summary of Issue	Sipsmith is a gin manufacturer that earns a material amount of revenue from the sale of alcohol
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the previous fiscal year, 100% of Sipsmith's revenue was earned from the sale of alcohol
Impact on Stakeholders	Alcohol may have a negative impact on the health and well-being of individuals and their communities
Implemented Management Practices	<p>Sipsmith complies with all regulations and laws related to the sale of alcohol in the UK where it operates, and all laws and regulations in other countries in which it sells its products.</p> <p>Bottles of Sipsmith's alcohol are labeled with nutritional information, including alcoholic units per serving, and have a symbol with a pregnant woman drinking with a line through the symbol to discourage alcohol consumption while pregnant.</p> <p>Sipsmith requests consumers to 'Sip responsibly' and provide a link to DRINKAWARE.co.uk for further health information and guidance. Drinkaware is an independent charity working to help people make better choices about drinking and reduce alcohol misuse and harm in the UK. Additionally, Sipsmith's website links to DRINKSMART.com, which is Beam Suntory's platform to communicate with legal drinking age adults about making informed, responsible choices.</p>

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Environmentally Intensive Industries - Water Intensive Industries

Issue Date	Ongoing
Topic	Water Intensive Industries
Summary of Issue	As a distillery, Sipsmith Ltd operates in an industry that is water intensive. Aspects of the industry that make it water intensive include cooling, cleaning, filling processes.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the previous fiscal year, 100% revenue was earned from the sale of alcohol. Sipsmith's onsite water intensity for 2020 was approximately 5 liters water per liter of pure alcohol, for cooling, cleaning and filling requirements.
Impact on Stakeholders	As a water intensive industry, alcohol production poses risks such as water stress or depletion of local water sources if water use is not appropriately managed. In the case of Sipsmith, water is sourced from mains water supply, provided by Thames Water.
Implemented Management Practices	<p>Sipsmith monitors distillery water consumption relative to Liters of Alcohol Produced (LPA) and has targets in place to reduce consumption - 15% absolute reduction in water intensity by 2030.</p> <p>In 2019, Sipsmith installed a larger capacity chiller which allowed Sipsmith to move away from an open cooling system (water from mains source) to a closed loop cooling system for all 3 of Sipsmith's stills. This saved up to 6 million liters of water being used per year since installation. Further to this, Sipsmith has installed water batching systems to better control water used for cooling, filling and cleaning.</p> <p>Stakeholder impact is managed by the mains water supplier. However, Sipsmith is going to complete a watershed assessment of water supply to better understand any impact on stakeholders.</p>
