

Green Nudge Strategies Pte. Ltd.

Disclosure Report

Date Submitted: December 26th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	Green Nudge Strategies is an environmental consultancy based in Singapore offering services such as cleanups workshops, learning journeys, training and consultancy. Over the last 5 years the company has had clients in the Alcohol, Defense, For-profit higher education, Fossil Fuel (coal, oil sands) and Tobacco industries. Services offered to these clients can be sold to both clients in controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In FY2022 the % of revenue from clients operating in controversial industries represented the following: - Clients in the Alcohol industry: 2.38% - Clients in the For-profit higher education industry: 1.65% - Clients in the Fossil Fuels (coal, oil sands) industry: 2.49% - Clients in the Defense industry: 0.44%. The company no longer works with this client. - Clients in the Tobacco industry: 0% in FY2022, One off engagement in 2020 representing 9.1% of revenue. The company no longer serves clients in this industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	For clients that are in industries deemed as sensitive by Green Nudge such as oil and gas; and alcohol, the company will work with these companies only if they deem that it does not perpetuate their scope of business. Green Nudge will only work with these clients for internal engagements e.g. internal staff employee engagements; and will not work with these clients on
