# NOT ALL STAINLESS STEEL BOTTLES ARE

## Our Bottles are Big on SAFE : Small on WASTE

Our materials are traceable to source and laboratory tested to the highest standards so you can be sure that our products are certified 100% free from harmful chemicals. This goes above and beyond restrictions placed on drinkware sold in the UK/Europe

In addition, our factory is accredited with ISO9000, ISO14001 plus SEDEX and BCSI - these are the highest levels of corporate, social and environmental responsibility. Every product sold is certified by the FDA plus LFGB for food safety, including EU regulation 10:2011 (confirming products are BPA/BPS and Phthalate free)

## Together we have saved billions of single use plastic bottles from the ocean.

We are making caps from ocean plastic and bottles from recycled stainless steel. For every bottle sold we reclaim 50 plastic bottles from the ocean

"Beware of cheap imitations - check your bottle has passed LFGB and FDA testing as a bare minimum. Through rigorous accredited third-party scientific testing, our brand ensures that every product meets the highest safety and durability standards, providing customers with eco-friendly solutions they can trust.

We believe it's not enough to simply avoid plastic; we need to actively remove it from our oceans," says Founder Heather Nicholson.

# PROUD TO SUPPLY TEAM GB

onegreenbottle were the official suppliers of water bottles at the Rio, Tokyo and Paris Olympics and Paralympics plus Winter Olympics and Paralympics in Beijing, Seoul and Milan

Testimonial from the British Olympic Committee

"The heat of the Tokyo 2020 Olympic Games presented Team GB with a specific challenge to provide an insulated water bottle that kept drinks cold for athletes in the hot and humid climate. Onegreenbottle supplied Team GB with a branded stainless steel bottle with a sports cap which performed well under these intense conditions and undoubtedly helped give Team GB a performance advantage" British Olympic Committee 2020

# THE GRUFFALO & FRIENDS

Botl are proud to have exclusive licence to produce bespoke Gruffalo and The Zog stainless steel, insulated water bottles.
