

Tenzing

Disclosure Report

Date Submitted: January 22nd, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒
Illegal Products or Subject to Phase Out	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant layoffs of >20% of workforce

Issue Date	2020
Topic	Significant layoffs due to COVID-19
Summary of Issue	TENZING has experienced one round of layoffs over the last five years, which occurred in 2020 as a result of the COVID-19 global pandemic. Those who were FTEs (4 people) were given a month's salary beyond their redundancy notice - this exceeded their contractual terms. Temporary workers (*Zing Team) were furloughed and paid for as long as possible. *The Zing Team is a team of sampling staff - sampling was prohibited by the UK government's COVID-19 social distancing restrictions and therefore, there was no longer any work available for the Zing Team to endure. Regrettably, this meant there was no alternative other than to end their contracts. The 4 FTEs that were laid off included the manager of the Zing Team and three sales representatives in areas where no contact sales were possible due to C-19 restrictions.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	4 full-time employees were laid off which accounted for 26% of full-time & part-time employees and independent contractors. 29 temporary workers were laid off, as a result of the global COVID-19 pandemic, which represented 82% of temporary workers.
Impact on Stakeholders	The primary impact was loss of employment for affected employees.
Implemented Management Practices	Temporary workers referred to as the Zing team, were furloughed as part of the UK government help scheme and paid for as long as possible. References were also offered to those who required one for new employment opportunities.
Related Incidents (Yes/No)	Tenzing has experienced one round of layoffs over the last five years, which occurred in 2020 as a result of the COVID-19 global pandemic.
