

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name California Valley Land Co dba Woolf Enterprises

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.		
Animal Products or Services		<input checked="" type="checkbox"/>
Biodiversity Impacts	<input checked="" type="checkbox"/>	
Chemicals		<input checked="" type="checkbox"/>
Company Explanation Of Disclosure Item Flags		<input checked="" type="checkbox"/>
Disclosure Alcohol		<input checked="" type="checkbox"/>
Disclosure Firearms Weapons		<input checked="" type="checkbox"/>
Disclosure Mining		<input checked="" type="checkbox"/>

Workers not Provided Clean Drinking Water or Toilets		<input checked="" type="checkbox"/>
Workers paid below minimum wage		<input checked="" type="checkbox"/>
Workers Under Bond		<input checked="" type="checkbox"/>
Other		<input checked="" type="checkbox"/>

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: California Valley Land Co dba Woolf Enterprises

DISCLOSURE QUESTIONNAIRE CATEGORY	Environmentally Intensive Industries
TOPIC	Biodiversity Impact
SUMMARY OF ISSUE	As a agricultural company, Woolf Enterprises operates in an industry in which biodiversity impact is a material environmental issue.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	98% of company revenue comes from products grown by the company. We farm 11,000 hectares. 41% is under cultivation.
IMPACT ON STAKEHOLDER(S)	Agriculture poses a risk to local ecosystems of flora and fauna as well as the potential degradation of cultivated land.
IMPLEMENTED MGT PRACTICES	We use an integrated pest management strategy for the use of herbicides for weed control and pesticides for insect management. We manage herbicide and pesticide use to improve soil health; protect groundwater quality; protect non-targeted plants, animals, and insects; and optimize crop yield. We have also reduced our use of rodenticides by implementing the use of owl boxes as a natural solution. We utilize crop rotation in our row crops to improve soil health. We apply fertilizer in micro-doses throughout the growing season to optimize its uptake by the crop and reduce the total amount applied. Our target is a 5 percent reduction in pesticide usage compared to our peers.

DISCLOSURE QUESTIONNAIRE CATEGORY	Environmentally Intensive Industries
ISSUE DATE	Water Intensive Industries
TOPIC	Settlements related to employee contracts
SUMMARY OF ISSUE	As a agricultural company, Woolf Enterprises operates in an industry that is water intensive.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	98% of company revenue comes from products grown by the company. We farm 11,000 hectares of land. 89% of the land is irrigated by drip irrigation.
IMPACT ON STAKEHOLDER(S)	As a water intensive industry, agriculture poses risks such as water stress or depletion of local water sources if water use is not appropriately managed.
IMPLEMENTED MGT PRACTICES	We do not source products from other growers and do not have any supplier farms. We reduce our water use by irrigating frequently via drip irrigation in small doses that are designed to match up with the crop's usage. This reduces our water use. We target a 20% reduction compared to ETC on average.
