

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

## **B Corp Certification - Disclosure Questionnaire Documentation**

PROVIDED BY: Integra Chile SA UPDATED AS OF: April 29, 2021

DISCLOSURE QUESTIONNAIRE CATEGORY	Water Intensive Industries
TOPIC	Seafood processing activities that are water intensive
SUMMARY OF ISSUE	Integra Chile is a seafood company that conducts water intensive processes to clean and process their products.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of the company's revenue comes from the sale of salmon.
IMPACT ON STAKEHOLDERS	As a water intensive industry, seafood processing poses risks such as water stress or depletion of local water sources if water use is not appropriately managed.  Integra's water is sourced from an underground well that is independent from community water resources, and its water rights are approved in the Dirección General de Aguas in Resolution 251 of 2015.
IMPLEMENTED MGT PRACTICES	Integra monitors its water use on a daily basis and it is factored into weekly production planning. The company has also implemented measures toward efficient water use such as employing hydrowashers and incorporating spouts on hoses. Its management systems include a formal goal to not exceed 13 cubic meters per ton of product processed, which is indeed achieved.

## **B Corp Certification - Disclosure Questionnaire Documentation**

PROVIDED BY: Integra Chile SA UPDATED AS OF: April 29, 2021

DISCLOSURE	Animal Products and Services
QUESTIONNAIRE CATEGORY	
TOPIC	Company involvement in seafood/aquaculture industry
SUMMARY OF ISSUE	Integra Chile is seafood company specializing in the sale of salmon raised via aquaculture. The company is ASC certified, and 100% of its raw materials have Best Aquaculture Practices (BAP) certification.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of the company's revenue comes from the sale of salmon.
IMPACT ON STAKEHOLDERS	There are several social and environmental risks associated with the global seafood industry, including poor labor conditions, human rights violations, impacts on biodiversity, and impacts on ocean health. Supply chain traceability in the seafood industry can be challenging, which contributes to the continued prevalence of these issues globally. In the case of Integra, the company holds ASC Chain of Custody Certification, and all of its raw materials are traceable back to the original supplier.
IMPLEMENTED MGT PRACTICES	Integra has 100% visibility into its supply chain and holds ASC Chain of Custody Certification at the company level. In addition, 100% of its products are BAP certified, which ensures traceability and that industry best practices are being followed with regard to social and environmental criteria at each step of the supply chain. Integra is also audited by SMETA, which is related to the company's ethical practices.  In addition to these third-party certifications, Integra has a formal supplier Code of Conduct that all suppliers receive and that includes provisions about forced labor and labor rights. Aninternal Ethics Committee is responsible for ethics committee responsible for overseeing the application of the Code of Conduct. The company also has formal supplier evaluation procedures that reviews suppliers to ensure that they adhere to relevant regulations as well as ensuring they have third-party quality certifications.
OTHER MGT COMMENTS	Integra is also BRC certified, holding the company accountable to a high level of demand and excellence in best practices not just related to product quality, but also to worker and food safety.
