

## DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

## DISCLOSURE QUESTIONNAIRE

Company Name Solstice Consulting LLC (d.b.a. Kin and Carta U.S.)

Date Submitted: 10/12/2020

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.		
Animal Products or Services		√
Biodiversity Impacts		√
Chemicals		√

## B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Solstice Consulting LLC (d.b.a. Kin and Carta U.S.)      UPDATED AS OF: 12/10/2020

<b>DISCLOSURE QUESTIONNAIRE CATEGORY</b>	Genetically modified organisms (GMOs)
<b>TOPIC</b>	Company has a client the produces GMOs
<b>SUMMARY OF ISSUE</b>	Company provides digital consulting services to an agriscience client that produces GMOs. The company provides similar services to clients in other industries too.
<b>SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)</b>	In 2019, company derived approximately 10% of revenue from the client in the agriscience industry.
<b>IMPACT ON STAKEHOLDER(S)</b>	The main concerns pertaining to GMOs are linked to human health & environmental impacts. The key issues debated with regards to human health are the potentials of GMOs to provoke allergic reaction (allergenicity), gene transfer and outcrossing. On the environmental front, issues of concern include: the capability of the GMO to escape and potentially introduce the engineered genes into wild populations; the persistence of the gene after the GMO has been harvested; the susceptibility of non-target organisms (e.g. insects which are not pests) to the gene product; the stability of the gene; the reduction in the spectrum of other plants including loss of biodiversity; and increased use of chemicals in agriculture. [Source: WHO]
<b>IMPLEMENTED MGT PRACTICES</b>	<p>The company's involvement in GMOs is only through the supply of their digital services to a client in the agriscience industry that produces GMOs. The company does not provide services that are used for genetic modification purposes.</p> <p>The company provides digital delivery services related to the commercial aspects, supply chain functions and the research &amp; development division of the client.</p> <p>Company has no formal policy on reducing engagement with this industry or for conducting due diligence on clients in the agriscience industry.</p>
