

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Oak Bay Luxury Getaway
 Date Submitted: 17/12/2021

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

DISCLOSURE QUESTIONNAIRE CATEGORY	Facilities located in sensitive ecosystems
TOPIC	Company has vacation rental homes located in the UNESCO designated Georgian Bay Biosphere.
SUMMARY OF ISSUE	Oak Bay Luxury Getaway is located in the Georgian Bay Biosphere which is the largest freshwater archipelago in the world. The Township of Georgian Bay and the Oak Bay Golf Course (located close to the rental) are designated Bee City locations.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of the company facilities are located in the Georgian Bay Biosphere.
IMPACT ON STAKEHOLDERS	By operating in a biosphere, the risk is to many travellers and the carbon footprint left behind with constant use of the facility. To mitigate this we need to be conscious of how we operate, and how we educate the travelling public. Talking to our guests about snakes and turtles, and how to respect them if there is an encounter is important. It is equally important that we educate about what guests bring, be it water bottles, excess packaging. We also spend a great deal of time talking about reducing our carbon footprint by encouraging the collection of food waste with our guests. We have a bin in the kitchen and also in the garage. We weigh food waste and recycling at the end of each visit.
IMPLEMENTED MGT PRACTICES	To mitigate the risk of negative environmental impact, the company conducts a comprehensive carbon audit each year to track and consciously reduce GHG emissions. They also do not use any pesticides or chemicals for pest control on their premises, in an effort to protect pollinators. They only use organic stone on the exterior of the rental house that is free from glue and fillers. The company also tracks water usage and waste production
REPORT	None yet, there will be more in 2022, with 1 % for the planet and also SheRun, SheWorks certifications
