

IND HEMP, LLC

Disclosure Report

Date Submitted: February 26th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Cannabis Related Products

Topic	Company is an industrial hemp processor.
Summary of Issue	IND Hemp is an American focused industrial hemp processor focused on producing Food, Feed and fiber from Hemp.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Approximately 90% of the IND HEMP revenues is from the sale of hemp products.
Impact on Stakeholders	Cannabis-related products are subject to controversy both because of their current and historic legal status around the world, as well as concerns about the potential harm that the products may cause. Current regulations governing the legality of cannabis-derived products are complex and vary widely by local jurisdiction.
Implemented Management Practices	The production of industrial hemp is regulated by the US Department of Agriculture (USDA). As required under the 2018 Farm Bill, all industrial hemp produced by IND HEMP's contracted growers is grown under a license issued by state. Federal and state regulations mandate that all fields must be tested to verify that the pre-harvest crop contains less than 0.3% THC on a dry weight basis. Crops found to contain more than 0.3% THC cannot be harvested and must be destroyed. To ensure continued compliance with applicable federal and state regulations and IND HEMP's own quality standards, the company conducts rigorous, on-going third party testing using nationally recognized testing facilities to verify and document that all the company's hemp oilseed and fiber products contain less than 0.3% THC prior to sale.
Management Comments	IND HEMP is authorized to conduct business a Licensed Montana Hemp Processor pursuant to License Number HPMT-0003 issued by the Montana Department of Agriculture. To date, IND HEMP's on-going third-party testing has shown that all of the Company's industrial hemp food, feed and fiber products contains less than 0.3% of THC on a dry-weight basis.
